

November 15, 2010

In consultation with Health Canada, McNeil Consumer Healthcare, Division of Johnson & Johnson Inc. has initiated a voluntary recall of all product lots of Children's BENADRYL® Allergy MELTAWAYS™ tablets sold in Canada.

This is a wholesale and retail level recall. No action is required by consumers or healthcare providers and consumers can continue to use the product. The recall was initiated after a review revealed insufficiencies in the development of the manufacturing process. There is no indication that the recalled products do not meet quality standards, and this recall is not being undertaken on the basis of adverse events.

Consumers with questions should call our Consumer Care Center at 1-888-222-6036 (available Monday-Friday from 8 a.m. – 8 p.m. ET.)
